

source will have a minimum of 10 calendar days from the date of our follow-up request to reply, unless our experience with that source indicates that a longer period is advisable in a particular case.

(2) By "complete medical history," we mean the records of your medical source(s) covering at least the 12 months preceding the month in which you file your application. If you say that your disability began less than 12 months before you filed your application, we will develop your complete medical history beginning with the month you say your disability began unless we have reason to believe that your disability began earlier.

(e) *Recontacting medical sources.* When the evidence we receive from your treating physician or psychologist or other medical source is inadequate for us to determine whether you are disabled, we will need additional information to reach a determination or a decision. To obtain the information, we will take the following actions.

(1) We will first recontact your treating physician or psychologist or other medical source to determine whether the additional information we need is readily available. We will seek additional evidence or clarification from your medical source when the report from your medical source contains a conflict or ambiguity that must be resolved, the report does not contain all the necessary information, or does not appear to be based on medically acceptable clinical and laboratory diagnostic techniques. We may do this by requesting copies of your medical source's records, a new report, or a more detailed report from your medical source, including your treating source, or by telephoning your medical source. In every instance where medical evidence is obtained over the telephone, the telephone report will be sent to the source for review, signature and return.

(2) We may not seek additional evidence or clarification from a medical source when we know from past experience that the source either cannot or will not provide the necessary findings.

(f) *Need for consultative examination.* If the information we need is not readily available from the records of your medical

treatment source, or we are unable to seek clarification from your medical source, we will ask you to attend one or more consultative examinations at our expense. See §§ 416.917 through 416.919t for the rules governing the consultative examination process. Generally, we will not request a consultative examination until we have made every reasonable effort to obtain evidence from your own medical sources. However, in some instances, such as when a source is known to be unable to provide certain tests or procedures or is known to be nonproductive or uncooperative, we may order a consultative examination while awaiting receipt of medical source evidence. We will not evaluate this evidence until we have made every reasonable effort to obtain evidence from your medical sources.

[56 FR 36963, Aug. 1, 1991, as amended at 62 FR 6421, Feb. 11, 1997]

EFFECTIVE DATE NOTE: At 62 FR 6421, Feb. 11, 1997, in § 416.912, paragraphs (a) and (c)(6) were revised, effective Apr. 14, 1997. For the convenience of the user, the superseded text is set forth as follows:

§ Evidence of your impairment.

(a) *General.* In general, you have to prove to us that you are blind or disabled. Therefore, you must bring to our attention everything that shows that you are blind or disabled. This means that you must furnish medical and other evidence that we can use to reach conclusions about your medical impairment(s) and, if material to the determination of whether you are blind or disabled, its effect on your ability to work on a sustained basis. We will consider only impairment(s) you say you have or about which we receive evidence.

* * * * *

(c) * * *

(6) Any other factors showing how your impairment(s) affects your ability to work. In §§ 416.960 through 416.969, we discuss in more detail the evidence we need when we consider vocational factors.

* * * * *

§ 416.913 Medical evidence of your impairment.

(a) *Acceptable sources.* We need reports about your impairments from acceptable medical sources. Acceptable medical sources are—

- (1) Licensed physicians;
- (2) Licensed osteopaths;
- (3) Licensed or certified psychologists;
- (4) Licensed optometrists for the measurement of visual acuity and visual fields (see paragraph (f) of this section for the evidence needed for statutory blindness); and

(5) Persons authorized to send us a copy or summary of the medical records of a hospital, clinic, sanatorium, medical institution, or health care facility. Generally, the copy or summary should be certified as accurate by the custodian or by any authorized employee of the Social Security Administration, Veterans' Administration, or State agency. However, we will not return an uncertified copy or summary for certification unless there is some question about the document.

(6) A report of an interdisciplinary team that contains the evaluation and signature of an acceptable medical source is also considered acceptable medical evidence.

(b) *Medical reports.* Medical reports should include—

- (1) Medical history;
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms);
- (5) Treatment prescribed with response, and prognosis; and

(6) A statement about what you can still do despite your impairment(s) based on the medical source's findings on the factors under paragraphs (b)(1) through (b)(5) of this section (except in statutory blindness claims). Although we will request a medical source statement about what you can still do despite your impairment(s), the lack of the medical source statement will not make the report incomplete. See § 416.927.

(c) *Statements about what you can still do.* Statements about what you can still do (based on the medical source's findings on the factors under paragraphs (b)(1) through (b)(5) of this section) should describe, but are not limited to, the kinds of physical and men-

tal capabilities listed below. See §§ 416.927 and 416.945(c).

(1) The medical source's opinion about your ability, despite your impairment(s), to do work-related activities such as sitting, standing, walking, lifting, carrying, handling objects, hearing, speaking, and traveling; and

(2) In cases of mental impairment(s), the medical source's opinion about your ability to understand, to carry out and remember instructions, and to respond appropriately to supervision, coworkers, and work pressures in a work setting.

(3) If you are a child, the medical source's opinion about your functional limitations in learning, motor functioning, performing self-care activities, communicating, socializing, and completing tasks (and, if you are a newborn or young infant from birth to age 1, responsiveness to stimuli).

(d) *Completeness.* The medical evidence, including the clinical and laboratory findings, must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. It must allow us to determine—

(1) The nature and limiting effects of your impairment(s) for any period in question;

(2) The probable duration of your impairment; and

(3) Your residual functional capacity to do work-related physical and mental activities.

(e) *Information from other sources.* Information from other sources may also help us to understand how your impairment(s) affects your ability to work or, if you are a child, your ability to function independently, appropriately, and effectively in an age-appropriate manner. Other sources may include, and are not limited to—

(1) Public and private social welfare agencies and social workers;

(2) Observations by people who know you (for example, spouses, parents and other caregivers, siblings, other relatives, friends or neighbors, clergy);

(3) Other practitioners (for example, nurse practitioners and physicians' assistants, naturopaths, and chiropractors);

(4) Therapists (for example, physical, occupational, or speech and language therapists); and

(5) Educational agencies and personnel (for example, school teachers, school psychologists who are not acceptable medical sources under paragraph (a), school counselors, preschools, early intervention teams, developmental centers, and daycare centers).

(f) *Evidence we need to establish statutory blindness.* If you are applying for benefits on the basis of statutory blindness, we will require an examination by a physician skilled in diseases of the eye or by an optometrist, whichever you may select.

[45 FR 55621, Aug. 20, 1980, as amended at 56 FR 5553, Feb. 11, 1991; 56 FR 36964, Aug. 1, 1991; 58 FR 47577, Sept. 9, 1993; 62 FR 6421, Feb. 11, 1997]

EFFECTIVE DATE NOTE: At 62 FR 6421, Feb. 11, 1997, in § 416.913, paragraph (c)(3) was revised, effective Apr. 14, 1997. For the convenience of the user, the superseded text is set forth as follows:

§ 416.913 Medical evidence of your impairment.

* * * * *

(c) * * *

(3) If you are a child, the medical source's opinion about your physical or mental abilities to function independently, appropriately, and effectively in an age-appropriate manner, as described in § 416.924d.

* * * * *

§ 416.914 When we will purchase existing evidence.

We need specific medical evidence to determine whether you are disabled or blind. We will pay for the medical evidence we request, if there is a charge. We will also be responsible for the cost of medical evidence we ask you to get.

§ 416.915 Where and how to submit evidence.

You may give us evidence about your impairment at any of our offices or at the office of any State agency authorized to make disability or blindness determinations. You may also give evidence to one of our employees authorized to accept evidence at another

place. For more information about this, see subpart C of this part.

§ 416.916 If you fail to submit medical and other evidence.

You (and if you are a child, your parent, guardian, relative, or other person acting on your behalf) must co-operate in furnishing us with, or in helping us to obtain or identify, available medical or other evidence about your impairment(s). When you fail to cooperate with us in obtaining evidence, we will have to make a decision based on information available in your case. We will not excuse you from giving us evidence because you have religious or personal reasons against medical examinations, tests, or treatment.

[58 FR 47577, Sept. 9, 1993]

§ 416.917 Consultative examination at our expense.

If your medical sources cannot or will not give us sufficient medical evidence about your impairment for us to determine whether you are disabled or blind, we may ask you to have one or more physical or mental examinations or tests. We will pay for these examinations. However, we will not pay for any medical examination arranged by you or your representative without our advance approval. If we arrange for the examination or test, we will give you reasonable notice of the date, time, and place the examination or test will be given, and the name of the person or facility who will do it. We will also give the examiner any necessary background information about your condition.

[56 FR 36964, Aug. 1, 1991]

§ 416.918 If you do not appear at a consultative examination.

(a) *General.* If you are applying for benefits and do not have a good reason for failing or refusing to take part in a consultative examination or test which we arrange for you to get information we need to determine your disability or blindness, we may find that you are not disabled or blind. If you are already receiving benefits and do not have a good reason for failing or refusing to take part in a consultative examination or test which we arranged for you,
